

## REMARKS

In an Office Action mailed October 6, 2004, pending claims 1-33 were made the subject of an election. Two patentably distinct species of the claimed invention were stated to exist and a restriction under 35 U.S.C. 121 was required. Election between claims 31-33 of Group I and claims 1-30 of Group II was required. In response Applicants are electing the identified invention of Group II. In order to expedite the examination process, Applicants are herein canceling non-elected claims 31-33 and reserve the right to file a subsequent divisional application.

No change in the identified inventorship is required as a result of this election. Amendment to the specification is herein requested to conform the title to the elected claims.

Applicants respectfully request entry of the amendments and the allowance of the elected claims 1-30, thereby placing the application in condition for allowance. Should issues remain that might be subject to resolution through a telephonic interview, the Examiner is requested to telephone the undersigned at (512) 996-6839.

Respectfully submitted,

Robert L. King
